

Buy Fresh, Buy Local, Roosevelt, NJ

Why is locally grown food important?

It tastes better because it's picked when fresh, not harvested in advance for long-distance shipping.

It's better for your health because fresh food contains more nutrients.

It's better for the environment because it maintains open space and promotes sustainable practices.

It's better for the community because it supports and creates a connection with local farm families.

It's better for the climate because it reduces carbon emissions from long-haul transport of food.

In Roosevelt, locally grown food is available at Mendies Farm, which operates a roadside stand and CSA (Community Supported Agriculture, where members buy a share of the produce grown on the farm.) The Farm is owned and managed by Roosevelt residents, Lawrence and Heidi Mendies.
