TO: The Honorable Mayor and Council Members

RE: Comprehensive Annual Financial Report for the
Year Ended December 31, 2020

The Comprehensive Annual Financial Report for the Borough of Roosevelt, County of Monmouth, State of New Jersey, is submitted herewith and includes financial statements and supplemental schedules. I believe that it is accurate in all material respects; that it is presented in a manner designed to set forth fairly the financial position and results of operations of the Borough of Roosevelt as measured by the financial activity of its various funds and account groups; and that all disclosures necessary to enable the reader to gain maximum understanding of the Borough's financial affairs have been included.

The Annual Comprehensive Financial Report (ACFR) is presented in four (4) sections: Introductory, Financial, Statistical and Auditor's Comments and Recommendations. The Introductory Section includes this transmittal letter, the Borough's Organizational Chart and a Roster of Officials. The Financial Section includes the annual financial statements and individual fund financial schedules, as well as the Independent Auditors' Report. The Statistical Section includes selected financial, economic and demographic information, generally presented on a multi-year basis. Responsibility for completeness and clarity of the report, including disclosures, rests with the Chief Financial Officer and ultimately with the Mayor and Council. The fourth and final section is prepared by the Independent Auditor and contains their required annual comments and recommendations, if any, to the Mayor and Council. The Mayor and Council are required to adopt a plan of action on the implementation of any audit recommendations.

The financial statements have been audited by Gerard Stankiewicz, CPA, RMA of Samuel Klein and Company, Certified Public Accountants, whose opinion is expressed in the Financial Section. Please note that the Independent Auditors' Report on the regulatory basis is unqualified and states that the financial statements – regulatory basis, are presented fairly in conformity with the basis of accounting as prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey.

PRESENT AND FUTURE CHALLENGES

During the 2020 calendar year, the Borough of Roosevelt has made progress in a number of operational and financial areas; however, this administration is clearly aware of the issues and problems that continue to demand our attention and improvement. While we take pride in the accomplishments of the past year, we are mindful of the issues that continue to face us.

CURRENT FUND

In 2020, our Current Fund, which encompasses the general government functions of the Borough, had revenues exclusive of fund balance utilized of \$1,109,606.63 incurred expenditures of \$1,184,741 resulting in a decrease of \$77,007.86 in fund balance at year-end. The Current Fund total revenues decreased approximately \$53,324.41, or 3.42% compared to 2019 caused primarily by decreases in other credits.

For the foreseeable future, our elected and appointed leaders will have to deal with the need to maintain stable tax rates, and deal with serious water-sewer infrastructure problems. The governing body and the administration will have to introduce new ideas and creative solutions to solve these problems.

The remainder of this transmittal letter will provide greater details relating to our progress during 2020 and some of our plans for the future.

STATUTORY AUTHORITY

The Borough is organized and administered in accordance with the provisions of New Jersey State Law and consists of an elected Mayor and a six (6) member Council responsible for providing all basic governmental services, except education, to its 808 local residents.

The Borough, pursuant to law, has the authority to levy taxes and issue debt.

In accordance with accounting principles generally accepted in the United States of America, as prescribed by the Governmental Accounting Standards Board, the Borough, for reporting entity determination purposes, is considered an independent government entity.

MAJOR ACTIVITIES AFFECTING BUDGET/FINANCIAL CONDITIONS

The Borough Council is actively involved in all decisions of the operation of the Borough and has expressed a genuine concern for all residents. The Governing Body is consistently searching for new and innovative ways to provide cost efficient services to its residents.

The Borough maintains its own Water and Sewer Treatment Plant.

The Borough's Water-Sewer Utility Budget is always under review and evaluation of the user charges to support the budget is done frequently in order for the utility to remain solvent. Major repairs and upkeep are done after careful scrutiny and with great concern by the Borough's Governing Body.

The Borough also annually appropriates funds for road reconstruction; however, the funding mix usually includes NJDOT grants.

The Borough provides for emergency response dispatching through Monmouth County 911.

The Borough of Roosevelt is unique in that it was designated as a historic district by the State of New Jersey since the forefathers of the town were part of a social experiment in the 1930's post-depression era. The Borough is trying to maintain the charming character of the community as the millennium began. The Borough is also known for many of its artistic residents.

The Borough after much study and thought entered into a contract with an outside service vendor to oversee the operation of the water and sewer utility. It is anticipated that there will be operational efficiencies and savings.

The Borough is a participant in the State of New Jersey Infrastructure Trust, NJI-Bank, a low interest loan program which is utilized to do major repairs to the Borough water tower.

CASH MANAGEMENT

Bank balances are insured up to \$250,000.00 in the aggregate by the Federal Deposit Insurance Corporation for each bank. In addition, the State of New Jersey Unit Deposit Protection Act insures the remaining balance of funds on deposit in registered depositories. At December 31, 2020, all cash funds on deposit were in registered depositories and were covered by these insurers.

The Borough invests all surplus funds for appropriate periods of time as determined by the Chief Financial Officer. During 2020, idle funds were invested in a money market fund. The Chief Financial Officer of the Borough monitors available cash balances for investment on an ongoing basis in order to maximize earnings on invested cash. The Borough has not entered into any compensating balance agreements.

ACCOUNTING AND BUDGET INFORMATION

Accounting

The Borough maintains a computerized accounting system to record all financial transactions.

In developing and evaluating the Borough's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that (1) the cost of controls should not exceed the benefits expected to be derived; and (2) the evaluation of costs and benefits requires estimates and judgment by management.

Management of the Borough is responsible for establishing and maintaining an adequate internal control structure.

Budget

The local budget law for the State of New Jersey requires every local unit to adopt an Operating Budget in the form required by the Division of Local Government Services (the "Division"), Department of Community Affairs of the State of New Jersey. Certain items of revenue and appropriation are regulated by law and the proposed budget must be certified by the Director of the Division prior to final adoption. The Budget Law requires each local unit to appropriate sufficient funds for the payment of current debt service, and the Director is required to review the adequacy of such appropriations, unless a specific amount is required by law. The review function, focusing on anticipated revenues, serves to protect the solvency of all local units.

Section 5:30-4 of the New Jersey Administrative Code provides that every local unit that proposes to spend \$25,000.00 or more on capital equipment, construction or improvements must prepare a Capital Budget. If the Borough's population exceeds 10,000 the Capital Program shall include by title all projects anticipated for the budget year and the five succeeding years, with the estimated costs and the anticipated financing by sources and amounts.

A Capital Budget Section included with the Annual Budget does not in itself confer any authorization to raise or expend funds. Rather, it is a document used as part of the local unit's planning and management program. Specific authorization to expend funds for purposes described in the Capital Budget must be granted separately, through the adoption of a bond ordinance, by appropriating funds from the Capital Improvement Fund, or other lawful means.

The budget of the Borough is categorized into appropriations by function. Each appropriation represents a service program or division within the Borough. Funds are appropriated to each of the budget lines by the Mayor and Council in accordance with procedures prescribed by the State of New Jersey Local Budget Law.

Distinct appropriations are required for "salaries and wages" and for "other expenses". The Borough delineates each appropriation into sub accounts by budget codes.

The Chief Financial Officer monitors expenditures throughout the fiscal year to ensure that spending remains within the amounts of funds authorized. Budget modifications are processed in the last two months of the year to transfer funds from one area to another as needed.

DEBT ADMINISTRATION

The authorized bonded indebtedness of municipalities in the State of New Jersey is limited by statute to an amount equal to 3½% of their equalized value. The equalized valuation basis of the Borough is set by statute as the average for the last three years of the equalized value of all taxable real property and improvements and certain railroad property within its boundaries as annually determined by the State Board of Taxation.

The Borough has gross debt authorized and outstanding of \$5,857,398.56 of which \$5,000,148.56 is attributed to the Water-Sewer Utility and \$857,250.00 is attributed to the General Capital Fund.

RISK MANAGEMENT

The Borough, like many other municipalities in the early '80's, was faced with an insurance crisis. It was unable to obtain coverage at any price. The Borough banded together with other municipalities to form the Monmouth County Municipal Joint Insurance and the New Jersey Municipal Excess Liability Funds. These Funds procure insurance on a pooled basis, generally self-insuring the initial level of loss for workers' compensation, property, general liability and automobile. The Funds provide their members with risk management services, including the defense of and settlement of claims and establish reasonable and necessary loss reduction and prevention procedures to be followed by the members.

ACKNOWLEDGMENTS

The preparation of this report on a timely basis could not be accomplished without the efficient and dedicated services of the entire staff of the Administration Department and the Finance Department. I would also like to express my appreciation to Gerard Stankiewicz, CPA, RMA of Samuel Klein and Company for his help and assistance in preparation of the Borough's CAFR.

Respectfully submitted,

INDEPENDENT AUDITORS' REPORT

The Honorable Mayor and Members
of the Borough Council
Borough of Roosevelt
County of Monmouth
State of New Jersey

To the Honorable Mayor and Members of the Borough Council:

Report on the Financial Statements

We have audited the financial statements – regulatory basis of the various funds and account groups of the Borough of Roosevelt, County of Monmouth, State of New Jersey as of December 31, 2020, and the related statement of operations and change in fund balance – regulatory basis for the year then ended, the related statement of revenues – regulatory basis, statement of expenditures – regulatory basis, and the related notes to the financial statements for the year then ended.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements – regulatory basis, in accordance with accounting principles and practices prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements – regulatory basis, based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and auditing standards prescribed by the Division of Local Government Service, Department of Community Affairs, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

INDEPENDENT AUDITORS' REPORT (CONTINUED)

Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements – regulatory basis, the financial statements are prepared by the Borough on a basis of the financial reporting provisions of the regulatory basis of the accounting and budget laws of the Division of Local Government Services, Department of Community Affairs, State of Jersey which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of the State of New Jersey.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matters discussed in the "Basis for Adverse Opinion on the United States Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the Borough of Roosevelt, County of Monmouth, State of New Jersey as of December 31, 2020, and change in financial position or cash flows thereof for the year then ended.

Opinion on Regulatory Basis of Accounting

Report on Required Supplementary Information

Accounting principles generally accepted in the United States of America require that pension plan information, include the Notes thereto, (Required Supplementary Information), as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

INDEPENDENT AUDITORS REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Mayor and Members
of the Borough Council
Borough of Roosevelt
County of Monmouth
State of New Jersey

To the Honorable Mayor and Members of the Borough Council:

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States and audit requirements as prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, the financial statements – regulatory basis of the Borough of Roosevelt (herein referred to as “the Borough”), as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the Borough’s basic financial statements, and have issued our report thereon dated September 15, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements – regulatory basis, we considered the Borough’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Borough’s internal control. Accordingly, we do not express an opinion on the effectiveness of the Borough’s internal control. A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity’s financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

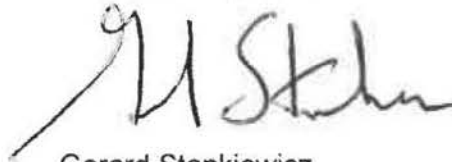

**INDEPENDENT AUDITORS REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED
ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS (CONTINUED)**

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Borough's financial statements - regulatory basis are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of non-compliance that we have reported to the management of the Borough in the "General Comments and Recommendations" section of this report.

This report is intended solely for the information of the governing body, management and the Division of Local Government Services, Department of Community Affairs, State of New Jersey and is not intended to be and should not be used by anyone other than these specified parties.

NOTES TO FINANCIAL STATEMENTS

BOROUGH OF ROOSEVELT
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2020

Note 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- A. Reporting Entity - The Borough of Roosevelt is located in Western Monmouth County approximately forty-five (45) miles southwest of the City of New York and fifty (50) miles northeast of the City of Philadelphia and twenty-three (23) miles east of Trenton. The population, according to the 2020 census, is 808.

The Borough of Roosevelt operates under the Borough form of government. The governing body consists of a Mayor and six Council members. All action is passed by a majority or, when required, a two-thirds (2/3) vote of the Council. The Mayor votes only in the event of a tie. The Mayor has veto power over all ordinances passed by the Borough Council. This veto can be overridden by a two-thirds (2/3) vote of the Council.

- B. Description of Funds - The Governmental Accounting Standards Board (GASB) is the recognized standard setting body for establishing governmental accounting and financial reporting principles. The GASB establishes funds to be used by governmental units when reporting financial position and results of operations in accordance with accounting principles generally accepted in the United States of America (GAAP).

The financial statements of the Borough of Roosevelt contain all funds and account groups in accordance with the "Requirements of Audit" as promulgated by the State of New Jersey, Department of Community Affairs, Division of Local Government Services. These principles are regulatory basis, which differs from accounting principles generally accepted in the United States of America ("GAAP") for governmental entities. Such principles and practices are designed primarily for determining compliance with legal provisions and budgetary restrictions and as a means of reporting on the stewardship of public officials with respect to public funds. Under this method of accounting, the Borough of Roosevelt accounts for its financial transactions through the following separate funds which differs from the funds required by accounting principles generally accepted in the United States of America (GAAP).

Current Fund - The Current Fund accounts for resources and expenditures for governmental operations of a general nature, including Federal and State grant funds.

Trust Funds - The various Trust Funds account for receipts, custodianship and disbursement of funds in accordance with the purpose for which each reserve was created. The Trust Other Fund, Animal Control Fund and Payroll Trust Fund are part of this Trust.

General Capital Fund - The General Capital Fund accounts for receipt and disbursement of funds for the acquisition of general capital facilities, other than those acquired in the Current Fund. General bonds and notes payable are recorded in this fund and are offset by deferred charges to future taxation.

B. Description of Funds (Continued)

Utility Fund - The Water-Sewer Utility maintains an Operating Fund and a Capital Fund which reflect revenue, expenditures, stewardship, acquisitions of utility infrastructure and other capital facilities, debt service, long-term debt and other related activity.

Payroll Trust Fund - Net salaries, certain payroll deductions and social security contributions of municipal and utility operations are deposited into bank accounts of the Payroll Fund. Other deductions are retained by the operating funds and paid directly there from. A Payroll Fund does not exist under GAAP.

Capital Asset Accounts - These accounts reflect estimated valuations of land, buildings and certain moveable fixed assets of the Borough as discussed under the caption of "Basis of Accounting".

- C. Basis of Accounting - The accounting principles and practices prescribed for municipalities by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, differ in certain respects from accounting principles generally accepted in the United States of America (GAAP). The accounting system is maintained on the modified accrual basis with certain exceptions. Significant accounting policies in New Jersey are summarized as follows:

Property Taxes and Other Revenue - Property Taxes and other revenue are realized when collected in cash or approved by regulation for accrual from certain sources of the State of New Jersey and the Federal Government. Accruals of taxes and other revenue are otherwise deferred as to realization by the establishment of offsetting reserve accounts. GAAP requires such revenue to be recognized in the accounting period when they become susceptible to accrual, reduced by an allowance for doubtful accounts.

Grant Revenue - Federal and State grants, entitlements or shared revenue received for purposes normally financed through the Current Fund are recognized when anticipated in the Borough of Roosevelt's budget. GAAP requires such revenue to be recognized in the accounting period when they become susceptible to accrual.

Expenditures - Expenditures for general and utility operations are generally recorded on the accrual basis. Unexpended appropriation balances, except for amounts which may have been canceled by the governing body or by statutory regulation, are automatically recorded as liabilities at December 31st of each year, under the title of "Appropriation Reserves".

Note 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basis of Accounting (Continued)

Expenditures (Continued)

Grant appropriations are charged upon budget adoption to create spending reserves.

Budgeted transfers to the Capital Improvement Fund are recorded as expenditures to the extent permitted by law.

Expenditures from Trust and Capital Funds are recorded upon occurrence and charged to accounts statutorily established for specific purposes.

Budget Appropriations for interest on General Capital Long-Term Debt is raised on the cash basis and is not accrued on the records; interest on Utility Debt is raised on the accrual basis and so recorded.

GAAP requires expenditures to be recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt, which should be recognized when due.

Encumbrances - As of January 1, 1986 all local units were required by Technical Accounting Directive No. 85-1, as promulgated by the Division of Local Government Services, to maintain an encumbrance accounting system. The directive states that contractual orders outstanding at December 31 are reported as expenditures through the establishment of an encumbrance payable. Encumbrances do not constitute expenditures under GAAP.

Appropriation Reserves - Appropriation reserves are available, until lapsed at the close of the succeeding year, to meet specific claims, commitments or contracts incurred during the preceding year. Lapsed appropriation reserves are recorded as additions to income. Appropriation reserves do not exist under GAAP.

Compensated Absences - Expenditures relating to obligations for unused vested accumulated sick, vacation and compensatory pay are not recorded until paid. GAAP requires that the amount that would normally be liquidated with expendable available financial resources be recorded as an expenditure in the operating funds and the remaining obligations be recorded as a long-term obligation.

C. Basis of Accounting (Continued)

Property Acquired for Taxes - Property Acquired for Taxes (Foreclosed Property) is recorded in the Current Fund at the assessed valuation during the year when such property was acquired by deed or foreclosure and is offset by a corresponding reserve account. GAAP requires such property to be recorded in the capital assets account group at market value on the date of acquisition.

Interfund Accounts Receivable - Interfund Accounts Receivable in the Current Fund are generally recorded with offsetting reserves which are established by charges to operations. Collections are recognized as income in the year that the receivables are realized. Interfund Accounts Receivable of all other funds are recorded as accrued and are not offset with reserve accounts. Interfund Accounts Receivable of one fund are offset with Interfund Accounts Payable of the opposite fund. GAAP does not require the establishment of an offsetting reserve.

Inventories of Supplies - Materials and supplies purchased by all funds are recorded as expenditures.

An annual inventory of materials and supplies for the Water-Sewer Utility is required, by regulation, to be prepared by Borough personnel for inclusion on the Water-Sewer Utility Operating Fund balance sheet. Annual changes in valuations, offset with a Reserve Account, are not considered as affecting results of operations. Materials and supplies of other funds are not inventoried nor included on their respective balance sheets.

Capital Assets

General - In accordance with Technical Accounting Directive No. 85-2, Accounting for Governmental Capital Assets, as promulgated by the Division of Local Government Services, which differs in certain respects from GAAP, the Borough of Roosevelt has developed a capital asset accounting and reporting system.

GAAP requires that fixed assets be capitalized at historical or estimated historical cost if actual historical cost is not available. Depreciation on utility fixed assets should also be recorded.

Capital assets used in governmental operations (capital assets) are accounted for in the Capital Asset Accounts. Public domain ("infrastructure") capital assets consisting of certain improvements other than buildings, such as roads, bridges, curbs and gutters, streets and sidewalks and drainage systems are not capitalized.

Capital Assets (Continued)

General (Continued)

Acquisition of land, buildings, machinery, equipment and other capital assets are recorded on a perpetual capital asset record.

Vehicles, furniture, equipment and other items are reflected at replacement values at time of inventory preparation. Additions to the established capital assets are valued at cost.

Depreciation of assets is not recorded as an operating expense of the Borough.

Utilities - Capital acquisitions, including utility infrastructure costs of the Water-Sewer Utility, are recorded at cost upon purchase or project completion in the Fixed Capital account of the utilities. The Fixed Capital Accounts are adjusted for dispositions or abandonments. The accounts include moveable fixed assets of the Utility but are not specifically identified.

Utility improvements that may have been constructed by developers are not recorded as additions to Fixed Capital.

Fixed Capital of the Utilities are offset by accumulations in Amortization Reserve Accounts. The accumulations represent costs of fixed assets purchased with budgeted funds or acquired by gift as well as grants, developer contributions or liquidations of related bonded debt and other liabilities incurred upon fixed asset acquisition.

The Fixed Capital Accounts reflected herein are recorded in the records of the municipality and do not necessarily reflect the true condition of such Fixed Capital. The records consist of a control account only.

Memorandum Only – Total Columns - Total columns are captioned "memorandum only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations or changes in financial position in conformity with generally accepted accounting principles. Neither are such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

To the extent relevant, the standards for SBITAs are based on the standards established in Statement No. 87, *Leases*, as amended.

Note 2. CASH, CASH EQUIVALENTS AND INVESTMENTS

A. Cash and Cash Equivalents

New Jersey statutes permit the deposit of public funds in institutions located in New Jersey, which are insured by the Federal Deposit Insurance Corporation (FDIC) or any other agencies of the United States that insures deposits or the State of New Jersey Cash Management Fund.

The State of New Jersey Cash Management Fund is authorized by statute and regulations of the State Investment Council to invest in fixed income and debt securities which mature or are redeemed within one year. Twenty-five percent of the Fund may be invested in eligible securities which mature within two years provided, however, the arbitrage maturity of all investments in the Fund shall not exceed one year. Collateralization of Fund investments is generally not required.

In addition, by regulation of the Division of Local Government Services, municipalities are allowed to deposit funds in the Municipal Bond Insurance Association (MBIA) through their investment management company, the Municipal Investors Service Corporation.

In accordance with the provisions of the Governmental Unit Deposit Protection Act of New Jersey ("GUDPA"), public depositories are required to maintain collateral for deposits of public funds that exceed insurance limits as follows:

The market value of the collateral must equal five percent of the average daily balance of public funds or

If the public funds deposited exceed 75 percent of the capital funds of the depository, the depository must provide collateral having a market value equal to 100 percent of the amount exceeding 75 percent.

All collateral must be deposited with the Federal Reserve Bank, The Federal Home Loan Bank Board or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.00.

As of December 31, 2020, the Borough had funds on deposit in interest bearing checking accounts. The amount of the Borough's cash and cash equivalents on deposits as of December 31, 2020 was \$2,193,606.91. Note 3. TAXES AND TAX TITLE LIENS RECEIVABLE

Property assessments are determined on true values and taxes are assessed based upon these values. The residential tax bill includes the levies for the Borough, County and School purposes. Certified adopted budgets are submitted to the County Board of Taxation by each taxing district. The tax rate is determined by the Board upon the filing of these budgets.

The tax bills are mailed by the Tax Collector annually in June and are payable in four quarterly installments due the first of August and November of the current year and a preliminary billing due the first of February and May of the subsequent year. The August and November billings represent the third and fourth quarter installments and are calculated by taking the total year tax levy less the preliminary first and second quarter installments due February and May. The preliminary levy is based on one-half of the current year's total tax.

Tax installments not paid by the above due dates are subject to interest penalties determined by a resolution of the governing body. The rate of interest in accordance with the aforementioned resolution is 8% per annum on the first \$1,500.00 of delinquency and 18% on any delinquency in excess of \$1,500.00. The governing body may also fix a penalty to be charged to a taxpayer with a delinquency in excess of \$10,000.00 who fails to pay that delinquency as billed prior to the end of the fiscal year. The penalty so fixed shall not exceed 6% of the amount of the delinquency with respect to each most recent fiscal year only. The resolution also sets a grace period of ten days before interest is calculated.

Taxes unpaid on the 11th day of the eleventh month in the fiscal year when the taxes became in arrears are subject to the tax sale provisions of the New Jersey statutes. The municipality may institute in rem foreclosure proceedings after six months from the date of the sale if the lien has not been redeemed.

The following is a five-year comparison of certain statistical information relative to property taxes and property tax collections for the current and previous four years.

Contributions Required to be Made

The contribution policy for PERS is set by N.J.S.A. 43:15A and requires contributions by active members and contributing employers. Employee contributions for 2020 were seven and 50/100th percent (7.50%) of the employee's base wages. Employer's contributions are actuarially determined annually by the Division of Pension.

The local employers' contribution amounts are based on an actuarially determined rate, which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets.

The Borough's contributions to the plan for the past three (3) years are as follows:

	<u>PERS</u>

Pension (PERS) Accrual

The Borough is required to report on its financial statements on an “Other Comprehensive Basis of Accounting” (OCBOA) Regulatory Basis, which does not require an accrual for its obligations inclusive of pension. If the Borough were required to reflect the obligation under Generally Accepted Accounting Principles (GAAP) then an accrual for the PERS obligation due April 1, 2021 would be needed in the amount of \$16,782.00 since the obligation relates to the period December 31, 2019 and prior. The accrual (under GAAP) would affect the fund balance at yearend.

The information for PERS was abstracted from State of New Jersey Public Employees’ Retirement System Schedules of Employer Allocations and Schedules of Pension Amounts by Employer as of June 30, 2020 and June 30, 2019 Independent Auditor’s Report dated June 4, 2021 and June 5, 2020, respectively.

The Borough’s reported liability of \$250,167 and \$431,759.00 for its proportionate share of the net pension liability at December 31, 2020 and December 31, 2019, respectively. The net pension liability was measured as of June 30, 2020 and June 30, 2019 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of those dates. The Borough’s proportion of the net pension liability was based on a projection of the Borough’s long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined.

Mortality Rates

Pre-retirement mortality rates were based on the Pub-2000 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2020.

The actuarial assumptions used in the July 1, 2019 valuation were based on the results of an actuarial experience study for the period July 1, 2014 to June 30, 2018. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates; the larger the impact on future financial statements.

Long-Term Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2020) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Discount Rate

The discount rate used to measure the total pension liability was 7.00% as of June 30, 2020. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity will be based on 78% of actuarially determined contributions for the State employer and 100% of actuarially determined contributions for the local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments to determine the total pension liability.

The "Small Business Job Protective Act of 1996" modified several provisions of Section 457 of the Internal Revenue Code. The most significant change in the law related to the ownership of the fund.

All amounts of compensation deferred under the Plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property or rights are (until paid or made available to the employee or other beneficiary) solely the property and rights of the employees. The Borough is potentially liable for expenditures which may be disallowed pursuant to the terms of these grant programs. Management is not aware of any material items of noncompliance which would result in the disallowance of program expenditures.

C. Compensated Absences

The Borough allows employees to carryover unused vacation days at the end of the year. The amount of liability is minimal. Unused sick time does not accumulate and therefore no liability exists as of December 31, 2020.

D. State Tax Appeals

There are no tax appeals pending at December 31, 2020.

Note 16. SUBSEQUENT EVENT: COVID-19 CORONAVIRUS PANDEMIC

The COVID-19 Coronavirus outbreak in the United States has caused the Governor of the State of New Jersey to mandate closures and a curfew for all nonessential citizens and businesses. The management of the Borough (which is essential) has evaluated the impact of the situation and has determined that there is no adverse impact on its December 31, 2020 financial statements (*audited*) and December 31, 2021 financial statements (*unaudited*). Financial impact in 2021 is uncertain at this time. A significant portion of the revenue to support Borough operations is tax levy and utility rents; however, certain other miscellaneous revenues may be impacted due to the economic effect of the closures and curfew. It is not known at this time if there are any federal or state funds available for impact relief.

AUDITOR'S COMMENTS AND RECOMMENDATIONS

GENERAL COMMENTS
DECEMBER 31, 2020

Contracts and Agreements Required To Be Advertised For N.J.S. 40A:11-4

N.J.S. 40A:11-4 states "Every contract or agreement, for the performance of any work or the furnishing or hiring of any materials or supplies, the cost or the contract price whereof is to be paid with or out of public funds not included within the terms of Section 3 of this act, shall be made or awarded only after public advertising for bids and bidding therefore, except as is provided otherwise in this act or specifically by any other law. No work, materials or supplies shall be undertaken, acquired or furnished for a sum exceeding in the aggregate of \$17,500.00 in the absence of a Qualified Purchasing Agent ("QPA"), except by contract or agreement."

The governing body of the Municipality has the responsibility of determining whether the expenditures in any category will exceed \$17,500.00 within the fiscal year. Where questions arise as to whether any contract or agreement might result in violation of the statute, the Borough Attorney's opinion should be sought before a commitment is made.

The minutes indicate that bids were requested by public advertising for the year as follows:

Rehabilitation of Well #3	Connect Flow Meters
Waste Hauling & Disposal	Removal of Aerator and Settling Tank

In addition, the following item was purchased under State Contract or Cooperative Purchasing Agreement:

Emergency Generator for Town Hall

The minutes indicate that resolutions were adopted and advertised authorizing the awarding of contracts or agreements for "Professional Services" per N.J.S. 40A:11-5.

Inasmuch as the system of records did not provide for an accumulation of payments for categories for the performance of any work or the furnishing or hiring of any materials or supplies, the results of such an accumulation could not reasonably be ascertained. Disbursements were reviewed, however, to determine whether any clear-cut violations existed.

Our examination of expenditures did not reveal any individual payments, contracts or agreements in excess of \$17,500.00 "for the performance of any work or the furnishing or hiring of any materials or supplies" other than those where bids had been previously sought by public advertisement or where a resolution had been previously adopted under the provision of N.J.S. 40A:11-6.

The Borough utilizes several vendors to perform various repair services on Borough owned equipment. One vendor in total exceeded the amount in which services/products should be bind in accordance with the Local Public Contracts Law ("*Bid Threshold*") of \$17,500.00. The expenditures were mostly from repairs and were the result of accumulation of several individual purchases; none of which were in excess of the bid threshold. When the trend over several years of expenditures in a particular category exceeds the bid threshold, then consideration should be given to preparing for specifications for the purpose of bidding in accordance with the Local Public Contracts Law.

NOW, THEREFORE, BE IT RESOLVED by the Mayor and Council of the Borough of Roosevelt, in the County of Monmouth and State of New Jersey, that the Tax Collector is hereby authorized to charge the maximum legal rate of interest allowed pursuant to N.J.S.A. 54:4-67 for delinquencies as defined therein, as may be amended and supplemented from time to time, which rates presently are as follows:
